ABOUT MYSELF

Full Stack Software Engineer with 5+ years of experience designing, building, deploying, and maintaining scalable web and mobile applications. Strong background in delivering end-to-end software solutions across frontend, backend, databases, and cloud environments.

Highly adaptable and fast learner, with a proven ability to quickly understand complex product requirements and translate them into efficient, scalable, and reliable technical solutions. Passionate about solving challenging problems, improving system architecture, and delivering high-quality, detail-oriented software.

Experienced in modern AI-assisted development workflows, leveraging LLM-based tools to accelerate development, improve productivity, and enhance software quality while maintaining strong engineering standards.

Strong focus on clean architecture, performance, and maintainable code, with a continuous learning mindset and a strong drive for technical excellence.

WORK EXPERIENCE

● **Digiprint** Msida, Malta **Full Stack developer**

31/05/2023 - Current

- Developed, maintained, and supported scalable web and mobile applications using Angular, Flutter, Node.js, Firebase, PostgreSQL, and AWS, ensuring high performance, reliability, and a seamless user experience.
- Designed and implemented frontend features and backend services, including RESTful APIs, authentication flows, database integrations, and business-critical functionality.
- Worked extensively with Firebase services, including Firestore, Authentication, Cloud Functions, Storage, and security rules, optimizing application performance and data management.
- Participated in software architecture decisions, contributing to the design and implementation of scalable multi-tenant solutions and maintainable system architectures.
- Deployed, monitored, and maintained applications on AWS, managing production environments, cloud infrastructure, and application reliability.
- Integrated third-party APIs, payment gateways, and external services, ensuring secure and reliable communication between systems.
- Investigated and resolved complex issues across frontend, backend, databases, and cloud environments, improving system stability and minimizing downtime.
- Collaborated with cross-functional teams in Agile environments to deliver new features, troubleshoot production issues, and continuously improve software quality.

● **Endrock growth and analytics** **Full Stack developer**

30/09/2022 - 31/05/2023

- Developed and maintained e-commerce storefronts using Shopify, leveraging Liquid, JavaScript (Vanilla), HTML5, and CSS/SASS to deliver responsive and high-performing user experiences.
- Customized Shopify themes and templates to implement new features, improve UI/UX, and adapt stores to business and marketing requirements.
- Implemented frontend enhancements and performance optimizations, improving page load speed, usability, and overall conversion-focused experience.
- Integrated third-party apps, plugins, and external services into Shopify environments, ensuring seamless functionality across payment, shipping, and analytics systems.
- Collaborated with design and marketing teams to translate business requirements into functional and visually optimized e-commerce solutions.
- Provided ongoing support, troubleshooting, and maintenance for production e-commerce stores, ensuring stability and continuous availability.

Facture S.A.S

Frontend Developer

31/10/2021 - 30/09/2022

- Designed and developed new features and products for electronic invoicing systems using Angular and .NET frameworks, ensuring compliance with business and regulatory requirements.
- Implemented frontend and backend components, contributing to the development of scalable and maintainable enterprise-level applications.
- Provided technical support, troubleshooting, and resolution of escalated customer issues, analyzing and fixing defects at the development level.
- Collaborated with support, QA, and development teams to diagnose, reproduce, and resolve production issues, ensuring system stability and reliability.
- Delivered updates, enhancements, and bug fixes to existing products, improving performance, usability, and overall product quality.

Tecnologica de Bolivar University

Computer Engineer Intern

30/06/2020 - 31/12/2020

- Developed and maintained frontend features for a web platform using Angular, ensuring a responsive, scalable, and user-friendly interface.
- Supported platform operations through monitoring of system performance and conference/event-related functionalities.
- Provided technical support to clients and internal teams through consultative assistance, troubleshooting issues and ensuring proper system usage.
- Delivered training sessions to end-users and stakeholders, improving product adoption and effective platform usage.
- Collaborated with cross-functional teams to identify issues, implement improvements, and ensure continuous platform stability.

EDUCATION & TRAINING

12/2014 - 09/2021 Cartagena, Colombia

Computer engineer Technological University of Bolivar

Address: Parque Industrial y Tecnológico Carlos Vélez Pombo Km 1 Vía Turbaco 111321, Cartagena (Colombia) | **Website:** <https://www.utb.edu.co/>

06/2020 - 07/2020 Cartagena, Colombia

Seminar in Project Management Technological University of Bolivar

Address: Parque Industrial y Tecnológico Carlos Vélez Pombo Km 1 Vía Turbaco 111321, Cartagena (Colombia) | **Website:** <https://www.utb.edu.co/>

08/2023

● **Angular Fundamentals Course** Platzi

Website: <https://platzi.com/p/jukopila.giovanny15/curso/2478-angular/diploma/detalle/>

08/2023

● **Angular Components and Services Course** Platzi

Website: <https://platzi.com/p/jukopila.giovanny15/curso/2486-angular-componentes/diploma/detalle/>

08/2023

● **Angular Router Course: Lazy Loading and Modular Programming** Platzi

Website: <https://platzi.com/p/jukopila.giovanny15/curso/2487-angular-modular/diploma/detalle/>

08/2023

● **Consumption of REST APIs with Angular Course** Platzi

Website: <https://platzi.com/p/jukopila.giovanny15/curso/2495-angular-apis/diploma/detalle/>
